Terminal Disclaimer

1. The terminal disclaimers filed on 5/28/2009 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 7,491,773 and US 7,332,554 have been reviewed and are accepted. The terminal disclaimers have been recorded.

Remarks on ISR

2. The references cited on the International Search Report do not anticipate or render obvious the claimed subject matter because none discloses the required $g'_{vis.avg}$ property. Furthermore, it appears from applicants' specification that specific polymerization conditions are necessary for obtaining said property. Given the differences in polymerization methods reported in the references, and the general lack of teaching which would reasonably instruct the ordinary skilled worker in obtaining a copolymer within the claimed scope, no sufficient basis can be found for concluding that the unreported property is either inherent in the references examples, or that obtaining the claimed copolymer would result from an obvious modification.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roberto Rábago whose telephone number is (571) 272-1109. The examiner can normally be reached on Monday - Friday from 8:00 - 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
